Transport packaging VENTEX	VD0019GB_Transportverpackung VENTEX.docx	c

1 General

- After the final approval all VENTEX® are packed by RICO Sicherheitstechnik AG.
- The price of the packaging is included in the price of the valve.
- The standard packaging is as described below.
- Beside the standard packaging a fully wooden packaging can be ordered. The cardboard box is replaced by a wooden cover.
- Other packaging can be ordered (e.g. special packaging for sea freight) are subject to additional charge too.
- Each valve is packed separately.
- RICO Sicherheitstechnik AG delivers unless otherwise expressly agreed FCA. The transport insurance is not covered by RICO Sicherheitstechnik AG.

2 Execution of the standard packaging

- The packaging consists of a wooden baseplate, on which the valve is screwed, and a corrugated cardboard carton box which are held together by a strap out of polyethylene terephthalate (PET).
- The wooden baseplate fulfils the ISPM 15 standard.

3 Dimensions and weights with standard packaging

Nominal diameter	100	150	200	250	300	400	500	600
Ventil mounted net	18 kg	29 kg	68 kg	86 kg	99 kg	139 kg	232 kg	295 kg
Packaging	5 kg	9 kg		13 kg		16 kg	30 kg	
Valve gross	23 kg	38 kg	77 kg	99 kg	112 kg	155 kg	262 kg	325 kg
Dimensions LxWxH [mm]	355x355x555	555x555x815		705x705x985		815x815x1145	1035x1035x1590	
Article number packaging	133334	133335		133336		133337	133338	

Depending on the execution, gross weight can vary up to +/- 5%.

For valve executions with a mechanical switch, the larger packaging must be selected for nominal widths DN100 and DN200. The gross weight thus increases by 4kg, as do the corresponding dimensions.

4 Execution of packaging with wooden cover

- The packaging consists of a wooden baseplate, on which the valve is screwed and a wooden cover which is screwed on the baseplate.
- All used wooden parts fulfil the ISPM 15 standard.
- This packaging is subject to additional costs and has to be ordered separately.

5 Dimensions and weights of packaging with wooden cover

Nominal diameter	100	150	200	250	300	400	500	600
Ventil mounted net	18 kg	29 kg	68 kg	86 kg	99 kg	139 kg	232 kg	295.0 kg
Packaging	12 kg	28 kg		41 kg		56 kg	100 kg	
Valve gross	30 kg	57 kg	96 kg	127 kg	140 kg	195 kg	333 kg	396.0 kg
Dimensions LxWxH [mm]	404x356x570	579x555x815		709x685x992		864x815x1160	1084x1036x1590	
Article number packaging	129951	133330		133331		133332	133333	

Depending on the execution, gross weight can vary up to +/- 5%.

For valve executions with a mechanical switch, the larger packaging must be selected for nominal widths DN100 and DN200. The gross weight thus increases by 4kg, as do the corresponding dimensions.

7 Intermediate Storage of VENTEX®

The intermediate storage of the explosion protection valve must take place in such a way that it does not have any negative effects on the product. The function and the lifespan of the VENTEX® valve must be ensured.
